Non-Presence of SVHC

December 16th, 2010

Dear customer,

Subject: Absence of REACH Substances of Very High Concern in Ti-Pure® Titanium Dioxide Pigments

The intent of this letter is to clarify how DuPont Ti-Pure® Titanium Dioxide Pigments are affected by the REACH ‘Candidate List’. As supplied, there are no substances intended to be released from these products as defined by article 7(1) under normal or reasonably foreseeable conditions of use.

DuPont Titanium Technologies confirms that, to our current knowledge, the above products do not contain any of the 46 substances listed on the Candidate List of Substances of Very High Concern (SVHC), as published on the ECHA website on December 15th 2010, in an individual concentration of ≥ 0.1 % by weight.

We are committed to comply in every respect to the requirements of REACH and relevant amendments. At present we do not expect any anticipated Substances of Very High Concern to be in our above products requiring reporting to the supply chain.

Should you have any question regarding the content of this letter, or any other REACH related subject, please do not hesitate to contact us.

Yours faithfully,

Annemie Verhaege    Brian Coleman
