Glycolic Acid

Regulatory and Product Stewardship

North America Regulatory Information

Glyclean™ Hard Surface Cleaner
EPA registration number is 71654-5.
Glyclean™ Hard Surface Cleaner is registered as an End Use Product (EUP). Registration allows for concentrations of 5% in formulated end-use products.
ACTIVE INGREDIENT: Glycolic acid 5.0%
OTHER INGREDIENTS: 95.0%

Glyclean™ AM
EPA registration number is 71654-1.
Glyclean™ AM is FIFRA registered as a Manufacturing Use Product (MUP).
For formulation of antimicrobial cleaners for use in household, industrial, institutional, commercial, and agricultural premises, and on food processing facilities and equipment, use up to 20% glycolic acid by weight (100% basis) in an aqueous solution. Formulation should be performed using a closed system. Labeling on end-use formulations may direct that end-use product be applied by spraying, mopping, or flooding.
NOTE: Manufacturers using this product to formulate pesticides are responsible for obtaining EPA registrations for their formulated products.

Glyclean™ Toilet Bowl Cleaner
EPA registration number is 71654-2
Glyclean™ Toilet Bowl Cleaner is registered as an End Use Product (EUP). Registration allows for 9.5% Glycolic Acid concentration.
ACTIVE INGREDIENT: Glycolic acid 9.5%
OTHER INGREDIENTS: 90.5%

European Regulatory Information

The Chemours Company has an application under review for the approval of Chemours Glycolic Acid (CAS 79-14-1; EC 201-180-5) as a biocidal active substance in accordance with the requirements of the biocidal products Regulation 528/2012.
Application seeks approval for the use of glycolic acid as a biocidal active substance for the use in the following biocidal product types:
Product Type 2: Disinfectants and algacides not intended for direct application to humans or animals
Product Type 3: Veterinary hygiene disinfectants
Product Type 4: Food and feed area disinfectants.
