Dear customer,

Subject: REACH Compliance Position for Chemours Titanium Technologies Ti-Pure™ Products

At Chemours, Product Stewardship is an important aspect of our supply chain relationships. We maintain an unwavering commitment to safety for our employees, our contractors, and the communities in which we operate. We share that concern for all who handle our products. As both a manufacturer and importer/exporter of substances covered under REACH, Chemours has established a team to address all of the requirements as they apply to our suppliers, our customers, and our own operations.

The purpose of this communication is to inform you of our current status and plans:

Chemours is ensuring that all Ti-Pure™ products sold to our EU and EEA customers by Chemours legal entities in Europe are in compliance with REACH regulatory requirements, including pre-registration and registration. Registrations have been completed for all substances due in 2010. No additional registrations were needed in 2013. Additional registrations will be completed before the required date in 2018.

REACH requires registration for individual substances (on their own or in preparations) greater than 1 metric ton per year. Each importer is responsible for its own compliance with REACH.

Chemours Titanium Technologies confirms that, to our current knowledge, the above products do not contain any of the 174 substances listed on the Candidate list of Substances of Very High Concern (SVHC), as published on the ECHA website on July 7th, 2017, in an individual concentration of ≥ 0.1 % by weight.

We also confirm that, to our current knowledge, following the publication of the Commission Regulation (EU) N° 895/2014 of August 14th, 2014, the above products do not contain any of the 31 SVHC that have been moved to the authorisation list, also known as Annex XIV, in an individual concentration of ≥ 0.1 % by weight.

The information set forth herein is furnished free of charge and based on technical data that Chemours believes to be reliable to the best of its knowledge. It is intended for use by persons having technical expertise, at their own risk. Since conditions of use are outside our control, Chemours makes no warranties, express or implied, and assumes no liability in connection with any use of this information. Nothing herein is to be taken as license to operate under or a recommendation to infringe any patents.
To understand fully the obligations that you as our customer have under REACH, we recommend that you consult the REACH web site at http://echa.europa.eu.
