Chemours and REACH

Dear Customer,

Chemours REACH General Statement

Chemours successfully complied with the 2010, 2013 and 2018 registration deadlines.

All products sold by Chemours to our EEA customers by Chemours legal entities in Europe¹ are compliant with REACH regulatory requirements. All necessary substances of the Chemours portfolio have been registered under REACH either by Chemours or by a supplier, or are exempt from REACH registration. Where required, European SDSs are being updated to be consistent with the information in the REACH registration.

Each importer is responsible for his own compliance with REACH; Chemours products sold to customers outside of EEA may not necessarily be compliant with REACH requirements.

To fully understand the obligations that you as our customer have under REACH, we recommend that you consult the ECHA website at

<https://echa.europa.eu/support/guidance-on-reach-and-clp-implementation/identify-your-obligations> .

¹ This includes the Chemours legal entities in the EU/EEA, as well as Chemours International Operations Sàrl.

This information is given in good faith and is based on data we believe to be reliable and on our current level of knowledge as of the date of this response. Therefore, we advise the recipient to request updates periodically. The information applies only to the specific material designated herein as sold by Chemours and does not apply to use in any process or in combination with any other material. It is provided at the request of and without charge to our customers. Since conditions of use and applications of above mentioned products are outside Chemours' control, Chemours makes no warranties, express or implied, and assumes no liability in connection with any use of this information.

Chemours Substances of Very High Concern (SVHC) Statement

Chemours sells products into a large variety of markets and applications. The majority of the products we sell do not contain substances above the legal threshold of above or equal to 0.1 % (w/w) that are on the European Union (EU) Candidate List of Substances of Very High Concern for Authorisation² or that have been moved to the Authorisation list, also known as REACH Annex XIV³.

For the products that contain a SVHC, we notify our direct customers and distributors in the EEA via the Safety Data Sheet in Section 15.

For situations where direct contact is not made or where there are additional questions or concerns about our products in regard to the Candidate List of SVHCs, please contact us at the following e-mail address: SIEF-DC&F@Chemours.com

Chemours REACH web site: https://www.chemours.com/REACH/en_US/index.html .
