

Chemours Acquires ICOR International

Acquisition Expands Market Access and Accelerates Customer-Centric Strategy

Wilmington, Del., April 3, 2018 – The Chemours Company (Chemours) (NYSE: CC), a global chemistry company with leading market positions in titanium technologies, fluoroproducts, and chemical solutions, announced today that Chemours has acquired ICOR International, a privately-owned leading supplier of branded, ozone safe refrigerants and related products for HVACR applications in North America.

“ICOR has developed an excellent reputation with contractors and equipment owners, has strong brands and an extensive distributor network, all of which will be a valuable addition to Chemours and enhances our ability to meet our customer needs in North America,” said Diego Boeri, vice president of Chemours fluorochemicals business.

“Chemours is establishing itself as a new kind of chemistry company and we are excited to join them on this journey,” said Gordon McKinney, vice president of sales and COO of ICOR International. “This acquisition clearly indicates the strategic long-term value that Chemours sees in our strong brands and customer-centric approach to the market.”

Chemours brings over 85 years of history and proven leadership in refrigerant science and pioneered much of the technology that makes air conditioning and refrigeration possible today. Chemours has demonstrated this leadership by continually delivering more sustainable, high-efficiency refrigerants to enable its customers to meet changing requirements while still meeting performance needs. Its Freon™ and Opteon™ brands offer the broadest range of refrigerant solutions for new and existing equipment.

About The Chemours Company

The Chemours Company (NYSE: CC) helps create a colorful, capable and cleaner world through the power of chemistry. Chemours is a global leader in titanium technologies, fluoroproducts and chemical solutions, providing its customers with solutions in a wide range of industries with market-defining products, application expertise and chemistry-based innovations. Chemours ingredients are found in plastics and coatings, refrigeration and air conditioning, mining and general industrial manufacturing. Our flagship products include prominent brands such as Teflon™, Ti-Pure™, Krytox™, Viton™, Opteon™, Freon™ and Nafion™. Chemours has approximately 7,000 employees and 26 manufacturing sites serving approximately 4,000 customers in North America, Latin America, Asia-Pacific and Europe. Chemours is headquartered in Wilmington, Delaware and is listed on the NYSE under the symbol CC. For more information please visit chemours.com.

Forward-Looking Statements

This press release contains forward-looking statements, within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995, that involve risks and uncertainties. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. The words "believe," "expect," "anticipate," "plan," "estimate," "target," "project" and similar expressions, among others, generally identify "forward-looking statements," which speak only as of the date the statements were made. These forward-looking statements address, among other things, our agreement with DuPont relating to the MDL Settlement, the outcome or resolution of any pending or future environmental liabilities, litigation and other legal proceedings or contingencies, anticipated future operating and financial performance, business plans and prospects,

transformation plans, cost savings targets, plans to increase profitability and our outlook for Adjusted EBITDA and free cash flow that are subject to substantial risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements. Forward-looking statements are based on certain assumptions and expectations of future events which may not be accurate or realized. Forward-looking statements also involve risks and uncertainties, many of which are beyond Chemours' control. Additionally, there may be other risks and uncertainties that Chemours is unable to identify at this time or that Chemours does not currently expect to have a material impact on its business. Factors that could cause or contribute to these differences include: whether the MDL Settlement becomes effective; the outcome of any pending or future litigation related to PFOA; the performance by DuPont of its obligations under the MDL Settlement; the terms of any final agreement between Chemours and DuPont relating to the MDL Settlement; and other risks, uncertainties and other factors discussed in our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2016. Chemours assumes no obligation to revise or update any forward-looking statement for any reason, except as required by law.
