Our titanium dioxide pigments are purified inorganic minerals. No compound or derivative of animal origin is added to Ti-Pure™ titanium dioxide pigments. Furthermore, based on our knowledge of the raw materials and of the process used to produce Ti-Pure™ products, we do not expect that any quantity of compounds or derivatives of animal origin be present in these products. Our pigments do not contain nor do they contact any food allergens during the manufacturing process. They do not contain substances listed in the CITES (Convention on International Trade in Endangered Species of Wild Fauna and Flora) Appendix I, II, or III, nor is it presumed that they contain species contained in the IUCN (International Union for Conservation of Nature and Natural Resources) Red List of Threatened Species.

CAUTION: Do not use Chemours materials in medical applications involving permanent implantation in the human body or contact with bodily fluids or tissues, unless the material has been provided from Chemours under a written contract that is consistent with Chemours policy regarding medical applications and expressly acknowledges the contemplated use. For further information, please contact your Chemours representative.

For medical emergencies, spills, or other critical situations, call (844) 773-2436 within the United States. For those outside of the United States, call (302) 773-1000. The information set forth herein is furnished free of charge and based on technical data that Chemours believes to be reliable. It is intended for use by persons having technical skill, at their own discretion and risk. The handling precaution information contained herein is given with the understanding that those using it will satisfy themselves that their particular conditions of use present no health or safety hazards. Because conditions of product use are outside our control, Chemours makes no warranties, express or implied, and assumes no liability in connection with any use of this information. As with any material, evaluation of any compound under end-use conditions prior to specification is essential. Nothing herein is to be taken as a license to operate under or a recommendation to infringe any patents. No part of this material may be reproduced, stored in a retrieval system or transmitted in any form or by any means electronic, mechanical, photocopying, recording or otherwise without the prior written permission of Chemours.
