Ti-Pure™ Titanium Dioxide (TiO₂) Samples — Use Recommendations

To obtain a product sample, please read and acknowledge acceptance of the following Chemours product recommendations below. By selecting "I agree", you agree to ALL terms and conditions governing the ordering and shipping of samples, described here.

I hereby acknowledge having read and understand the Chemours recommendations for the use restrictions of Chemours Titanium Dioxide products and confirm that I will comply with such recommendations:

Restriction on Sharing and Analysis.

Please do not share the sample material with any other entities outside of your organization. The sample is only to be used to support collaborative work between our two companies.

General Restrictions - Medical Device, Food, Drug, Cosmetic, and Tobacco Applications for Ti-Pure™ titanium dioxide pigment.

Do not use or resell Ti-Pure™ products in medical applications involving implantation in the human body or contact with internal body fluids or tissues unless agreed to by Seller in a written agreement covering such use.

Ti-Pure™ products may not be directly added to food, pharmaceuticals, cosmetics, or cigarette papers/filters for tobacco products. Chemours Titanium Technologies' products presently do not meet the criteria for direct food end uses.

Ti-Pure™ products do not meet the requirements for use in pharmaceuticals under the USP (U.S. Pharmacopeia) or European Pharmacopeia specifications. Chemours Titanium Technologies has not sought and does not plan to seek compliance with Pharmacopoeia regulations in any country for our Ti-Pure™ products. We do not test against any Pharmacopoeia standards. You are advised to check whether pharmaceutical packaging requirements include Pharmacopoeia related standards in your country.
