Re: Engineering Report Old Outfall 002 GAC Pilot Study Results Addendum

Dear Ms. Holman and Mr. Burdette,

On September 30, 2019, pursuant to paragraph 12.e of the Consent Order, Chemours submitted an Engineering Report for Old Outfall 002 GAC Pilot Study Results prepared by its contractor Parsons. The September 30 Engineering Report presented and summarized the analytical data from the study that were available at that time. The enclosed Engineering Report Addendum prepared by Parsons presents and summarizes the remaining analytical data from the study which have become available since the September 30 submittal. The additional data do not change the conclusions presented in the original report.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink that reads 'Brian D. Long'.

Brian D. Long
