Re: Paragraph 11(c) Final Quarterly Report – Addendum 1

Dear Ms. Masemore,

Please find enclosed an addendum to the *Characterization of PFAS in Process and Non-Process Wastewater and Stormwater: Initial Characterization – Final Quarterly Report* (Paragraph 11(c) Final Quarterly Report). The Paragraph 11(c) Final Quarterly Report was submitted on December 18, 2020 pursuant to Paragraph 11(c) in the executed Consent Order entered February 25, 2019 amongst Chemours, the North Carolina Department of Environmental Quality (DEQ), and Cape Fear River Watch. This addendum supplements the data reported in the Paragraph 11(c) Final Quarterly Report and summarizes sampling conducted during the period between the 18-month Initial Characterization period under Paragraph 11(c) (April 2019 – September 2020) and the beginning of Ongoing Sampling under Paragraph 11(d), starting January 2021. The report was prepared by Chemours' consultant, Geosyntec Consultants of NC, P.C.

If you have any questions, please contact me at Dawn.M.Hughes-1@chemours.com.

Sincerely,

A handwritten signature in black ink that reads 'Dawn M. Hughes'.
