## HAIR

### Benefits

Penetrates the hair shaft for conditioning from the inside out  
Making hair less prone to breakage  
Making hair more manageable, easier to style  
Helping hair to feel softer and smoother  
Moisturizing the hair and scalp for a healthy look and feel with less flaking of the scalp

### Applications

Conditioners  
Shampoos  
Moisturizing shampoos  
Leave-in conditioners  
All-in-one body/hair washes

## SKIN

### Benefits

Improving the appearance of sun damaged skin and fighting skin aging  
Revealing smoother, brighter, more supple skin with less pigmentation and fewer irregularities  
Promoting the cycle of skin shedding (also known as cell turnover) and re-growth

### Applications

Cell turnover/exfoliation products  
Skin peeling products  
Creams, serums, lotions, cleansers and toners designed to reduce the signs of aging  
Moisturizing skin creams and lotions  
Acne treatment combinations  
Sunscreen combinations  
Men's skin care

## NAILS AND CUTICLES

### Benefits

Moisturizing nails and cuticles for a healthier look and feel  
Softening cuticles for easier grooming

### Applications

Cuticle conditioners  
Nail conditioners
